2011

Professional Expertise

Docker

CONTAINERIZATION

2023 - Present

- As the most recent addition to my core set of technologies Docker is nothing short of a revolution which I try to implement for my business-customers wherever viable.

Linux

ADMINISTRATION

2013 - Present

- As a self-professed Open Source advocate I spend more waking hours in Linux-Terminals than I'd like to admit.

VMware

VIRTUALIZATION

2006 - Present

- The origin of my passion for systems engineering.

Windows

SERVER

2005 - Present

- Having taken an interest in Windows Server in my teenage years I still try to keep up with its contemporary releases.
